Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner Chapel notified Mr. Bittman that the copy of the foreign priority document could not be located by the USPTO but the examiner's references appear to all have dates coming before the foreign priority document's anyway. It was agreed that the examiner should send out his final action and if another copy of the Japanese foreign priority document (JP 2003-140352) was received from the applicant then foreign priority would be granted..
